Dear Al,

Congratulations on the recent UCLA Keystone Symposia. From my standpoint it was a huge success, particularly the quality of presentations and the informal nature of the talks. My congratulations and complements to you as well as Drs. Dratz and Van Kuijk.

As we briefly discussed I would like to take this opportunity to extend to you a formal invitation to visit, at your convenience, the University of Calgary, Faculty of Medicine as a Visiting Professor. I would like to have you present to the Immunology Sciences Research Group a seminar regarding some of your work with Cytochrome *b*. We will provide transportation to and from Calgary, accommodation expenses while in Calgary and an honorarium would also be included.

In terms of our schedule it would be best if the visit could occur sometime after May 1991. From my standpoint I need about two months notice from the time of your visit to make the necessary application and arrangements for funding. I would also need a title for the seminar and a recent copy of your CV.

Please consider my offer, we certainly would be excited about having you come to visit our research group. Once again, congratulations on the UCLA Keystone Symposia, and thank you once again for the opportunity to attend and participate.

With kind regards.

Yours sincerely,

Richard C. Woodman, M.D.  
Assistant Professor of Hematology
